3. Each stage usually has five targets. Four of the targets that can be shot in any order. The fifth target, known as the "Stop Plate", will be the last target engaged and stops the time of the string.
4. If all four targets were hit before the "Stop Plate" is hit the total raw time is scored for that string.
5. Each target not hit before the "Stop Plate" is hit incurs a +5 second penalty per target not hit that is added to the raw score.
6. Failure to complete a string will result in a score of 30 seconds for that string.
7. The four best times are used for scoring. Total of these four count as your stage score except for Outer Limits which counts 3 out of 4 times.
8. Competitors who, for whatever reason, choose to start from the "low ready" position, vice drawing from a holster will be scored in ROOKIES category. This does not apply to .22 Rimfire competitors
